Dear Construction Official,

Enclosed please find a warning to be distributed to homeowners applying for permits before they sign the Certification in Lieu of Oath found on the permit jacket. We wrote this warning in an effort to stem the tide of homeowners falsely certifying that they are performing their own work or constructing their own houses and then seeking our assistance in remedying problems created by the contractor.

Please have these warnings copied and distributed to homeowners with the permit application. If you have any questions, please call the Code Assistance Unit at (609) 984-7609.

Sincerely,

William M. Connolly

Director

Division of Codes and Standards

Before signing the Certification in Lieu of Oath indicating that you are performing the work yourself, please consider the following:

1. The laws requiring new home builders to be registered and contractors in the various trades, such as plumbing or electrical work, to be licensed were adopted to protect homeowners and homebuyers. If you are signing this Certification to provide cover to an unlicensed homebuilder or contractor, you are forfeiting the protection afforded to you under the law. The contractor that you have hired may or may not be qualified. And if you encounter problems with this contractor, the government will not be able to help you because you signed the Certification indicating that you are performing the work yourself.

In the case of the construction of a new home, you are forfeiting your right to a new home warranty. Every new home builder in New Jersey is required to be registered with the State and to give a warranty to each purchaser. The warranty covers almost all defects in workmanship or materials, including appliances, for the first year; plumbing, mechanical (heating and air conditioning), and electrical systems for the first two years; and major structural defects for ten years. Further, the warranty will actually pay for the correction of defects if the builder fails or refuses to do so. By signing the Certification, you are giving up that protection.

2. You are violating the criminal laws of this State if you sign the Certification indicating that you are doing the work yourself when, in fact, you are paying someone else to do it.
